**EYE PROTECTION**

**proforce®**

## EYE AND FACE PROTECTION

Eyesight is a sense we value probably more than any other, and one that is probably more exposed to risk and danger than any other area of our anatomy. proforce® has therefore selected a range of eyeshields, spectacles, goggles and faceshield that offer class-leading protection for a varied and demanding range of industrial environments.

Styles FP14 and FP16 come with a protective chrome spectacles case and the lenses have been treated to protect the eyes from UV light just like modern sunglasses.

General guidelines are provided below to assist in selection:

- **Eyeshields** – suitable for visitors to factories or other persons observing work where the risk of flying particles is low
- **Spectacles** – as above, but includes protection for low speed machine operations in low to moderate risk of flying particles
- **Goggles** (low energy dust/liquid) – suitable in areas where the main hazard is liquid droplet
- **Goggles** (medium energy impact) – suitable in areas where the main hazard is large flying particles
- **Goggles** (medium energy dust/liquid) – suitable in area where the main hazard is small flying particles and dust
- **Faceshield** – suitable for use in areas where the hazards include liquid splash and where it is desired to protect the whole face

- **FP14** proforce® Designer Smoke Safety Spectacles
- Supplied with a chrome spectacles case
- UV treated curve lenses
- Soft flexible comfort nose piece
- Panoramic vision
- **EN166 F**

- **FP16** proforce® Designer Metallic Safety Spectacles
- Supplied with a chrome spectacles case
- UV treated curve lenses
- Soft flexible comfort nose piece
- Panoramic vision
- **EN166 F**

- **FP17** proforce® Smoke Tech Spectacles
- Adjustable sidearms to fit temple length
- Built in side protection
- Sodium scratch-resistant polycarbonate lenses
- **EN166 F**

- **FP01** proforce® Direct Vent Goggle
- Clear polycarbonate lens
- Direct ventilation through frame
- Impact resistant
- **EN166 1 B**

- **FP02** proforce® Indirect Vent Chemical Goggle
- Clear anti-mist polycarbonate lens
- Ventilation through integral parts
- Protects against liquid, dust and molten metal
- **EN166 1 B (3.4.9)**

- **FP03** proforce® Clear Safety Over-Spectacles
- Ultra lightweight
- Panoramic vision
- Impact resistant polycarbonate lens
- **EN166 1 F**

- **FP04** proforce® Safety Wraparound Spectacles
- Clear scratch-resistant polycarbonate lens
- Moulded nose piece for added comfort
- Adjustable arms to improve fit to temples
- **EN166 1 F**

- **FP05** proforce® Trade Safety Spectacles
- Sideshields and browguard
- Scratch-resistant polycarbonate lens
- Impact resistant
- **EN166 1 F**

- **FP06** proforce® Yellow Safety Sports Spectacles
- Ultra lightweight materials
- Contour design for all day comfort
- Scratch-resistant and panoramic vision lens
- **EN166 1 F**

- **FP07 proforce®** Clear Safety Tech Spectacles
- Modern new generation design
- Adjustable temple length side arms for improved fit
- Soft nose piece and sodium scratch-resistant lenses
- **EN166 1 F**

- **FP12 proforce®** Clear Safety Eye Shield
- Vented side arms and side shields
- Lightweight and durable
- Panoramic vision
- **EN166 1 F**

## PREMIUM FACE SHIELD UNIT

- **FP09 proforce®** Full Face Shield
- 20cm clear polycarbonate screen
- Easy toggle fixing assembly
- Wheel ratchet fitting
- Brow guard harness
- Replacement parts also available
- **EN166 3 B**

### REPLACEMENT PARTS AVAILABLE:

- **FP08 proforce®** Replacement Brow Guard Harness only
- **FP11 proforce®** Replacement 20cm Polycarbonate Screen only
